

a wood

Embrace a tradition that brings harmony to the everyday.

a wood

Topic: Agarwood is a fragrant dark resinous wood used in incense, perfume, and small carvings. It is formed in the heartwood of aquilaria trees. The odour of agarwood is complex and pleasing; in addition, its substance has the function of purifying and disinfecting the air surrounds users.

Target Groups: Incense lovers, fragrance collectors, and the general public
The Campagin: AGARLARITY, a public health solution package that enriches a traditionalist's lifestyle, enhances a fragrance collector's taste, and embraces a crowd's surrounding.
